

I personally use and need the service that XM Radio provides in the form of entertainment. Additionally, the recent addition of Traffic and Weather has been very helpful. I STRONGLY support XM Radio in the continuance of the traffic and weather that they provide.

Regarding my position and hopefully yours on this issue, I urge you to reject the National Association of Broadcasters petition 04-160 that is currently open for public comments until June 4, 2004.

Thank you for your understanding in that I am paying for a subscription service. This is a similar decision to the decision that was made by Congress to allow satellite providers to broadcast local television stations.

Please reject petition 04-160.

Thank you,
Keith Ord
